ABOUT

I am 21 years old and I am a full time Business Management student at the University of Nelson Mandela in Port Elizabeth. I own two businesses, a business management firm focusing on ecommerce and a handmade skincare brand.

I love business and I love skincare.

I intend to further my love for skincare by becoming an esthetician after I graduate with my current qualification. I use my platforms to promote my businesses and other businesses that

I love and I also educate my audience on skincare, cosmetics and other topics I find myself interested in.
